- Agricultural Chain

As Makelsan Chain we offer a wide range of agricultural chain solutions for combine harvesters, grain elevators, silage cutters, round balers, vegetable and fruit conveyor belts, and grain dryers. At Makelsan Chain, we are proud to offer the highest quality agricultural chain solutions in the industry. Our products provide strength, reliability and precision in all kinds of agricultural applications, from combine harvesters and grain elevators to fruit conveyor belts and silage cutters. We know how important it is for farmers and other agricultural professionals that their equipment runs smoothly and efficiently, so we have designed our chains with this in mind. Every one of our products is manufactured with superior materials for maximum durability and performance. With Makelsan Chain, you can count on getting the highest quality agricultural solutions available on the market.
